UDAPEOPLE APP

By
Enock Kipsang

introduction

Udapeople provides business with solutions to improve their day to day activities

CI/CD ensures continuous delivery of software application with many benefits to developers and operations.

Benefits of Devops

1. Less developer time on issues from new code - Reduces cost
2. Less bugs in production - Avoids unnecessary cost.
3. Avoids costly security holes
4. Less human errors hence faster deployments - Avoids cost
5. Less infrastructure cost from unused resources- Reduces cost

Cont'

6. New features generated more quickly - Increases revenue within short time.

7. Less time to market new features - Increases revenue.

8. Reduce deployment crashes - No downtime and thus revenue flows steadily.

Conclusion

Thus including CICD tools in business projects greatly helps on revenue and deliverables with few resources
